1. I was recently informed by the case officer, [REDACTED] that agent [REDACTED] had received the power of attorney from the New York lawyer, but that the name was misspelt. The power of attorney will be returned to the lawyer in order that it may be corrected rather than simply initialed on the face of it.

2. In a meeting on 8 October with the attorney in New York, I suggested that he should have a copy of any declaration of estimated income for the year 1952 that the agent may have filed. (The case officer has been asked to query the agent on this.)
